

Sowing your own vegetables is not only easy to do it's also easy on the pocketbook. Here at Oderings Garden Centres we have a wide variety of vegetables to fill every corner of your veggie patch and cater to the fussiest of eaters. The following is a basic guide of what to sow when. I recommend sowing into seed trays unless they fall under the heading of "Direct Sow", in which case they should be sown straight into the garden. For how to sow seed successfully, follow our Seed Sowing Oderings Gardening Guide.

Sow All Year Round

Cabbage, Lettuce, Silverbeet, Mustard, Mesclun, Microgreens
